Global Strategic Development Task Force

- GSDTF developed the AIA Strategy for Global Engagement report to help ensure that globally practicing AIA members (and their professional practice needs) are integrated into all AIA programs.
- It will allow AIA to provide members the knowledge and resources to be competitive internationally; reinforces best practices; and helps develop AIA leaders globally.
- The AIA Strategy for Global Engagement report provides recommendations to achieve these goals through four areas:
 - Global practice resources
 - Global engagement and advocacy
 - Collaboration with international architecture associations
 - Improve communications and coordination of global initiatives and programs
- The report also provides an appendix of ideas for initiatives that support the recommendations, as well as a responsibility matrix to help suggest roles for international stakeholders and to prevent duplication of efforts.
- The AIA Strategy for Global Engagement is intended to set a strategic direction for AIA's international activities that is in alignment with the AIA Strategic Plan and other critical initiatives, including the Climate Action Plan, over the next five years.
-
- The work contained within the strategy will be implemented by AIA in accordance with the AIA Strategic Plan and AIA Operating Plan.

Strategic Council Representatives' Update

Greg Yager

Strategic Council Representative's Update

The Strategic Council is the “Think Tank” of the AIA. The Strategic Council is represented by members from each of the Regions of the AIA and engages in a number of research projects over the course of the term.

2021 is the year that the shift from Regional representation to State representation will commence. This is a three year process that was initiated this year. AIA International will remain the lone region in this body.

Also during this year the Strategic Council has improved its communications to the broader membership our region by conducting monthly catch up calls with board and Strategic Council Exco and Leadership representatives.

The Strategic Council is conducting Workgroup Sprints and Area of Study Groups to devise strategies and recommendations to the Board and membership. These areas include:

- Scalable Climate Action Sprint
- Diversity Spring
- Rural and Suburban Agenda
- Housing and Infrastructure
- Technology Impact on Practice
- Mental Health and Architecture

Special Investiture to honor and celebrate the class of 2020 and 2021

AIA College of Fellows will host a Special Investiture during AIA Governance Week in Washington DC on the 8th of December 2021 from 2:00pm – 4:40pm

This unique event will take place in the famous Opera House of the Kennedy Center. While it was designed for ballet, opera, and musical theater, over the years, the Opera House has hosted some of the most important artistic events of the last quarter century and annually hosts the Kennedy Center Honors.

The event will also be live streamed so that those who are not able to travel will be able to participate.

AIA College of Fellows now have new donation website. It's easy to use, it doesn't require a "login" or a password, it doesn't put your donation in a "cart" and "thank you for your purchase". <https://cof.networkforgood.com>

Donations to the College are used to strengthen the development of components of the AIA and to advance the professional development of Emerging Professionals.
